

ENERGY RECOVERY SYSTEMS

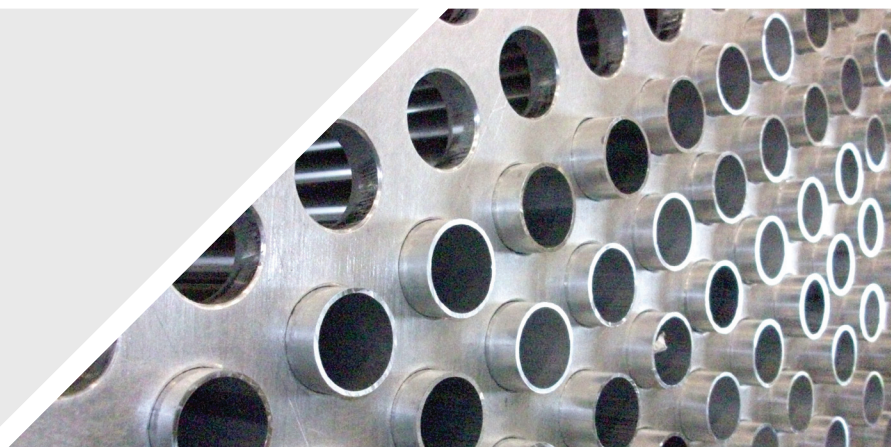

ENERGY RECOVERY PRODUCTS

- Hot oil recovery coils
- Shell and tube heat exchangers
- Plate heat exchangers
- Waste gas steam boilers
- Water coils
- High temperature heat exchangers (1800 °F)
- Regenerative style exchangers
- Pre-fabricated pump skids

SERVICES

- On site energy analysis
- Turnkey projects
- Over 35 years of energy experience
- 45,000 ft² manufacturing facility
- Engineering and project management staff
- 24hr technical service team
- Rebate assistance
- Consulting

ENERGY RECOVERY APPLICATIONS

- Process heating
- Steam
- Building heat
- Hot water
- Absorption chillers
- Electricity

ADVANTAGES

- Lower operating costs
- Rebate and government funding
- Increased profits
- Quick return on investments
- Lower CO emissions
- Lower NOx emissions
